SILVERLINE™

# Momento Silverline™

To further protect the environment  
Momento introduces a new coating for our  
impact sockets - Momento Silverline™

Momento Silverline™ is a unique impact  
socket coating with no heavy metals  
such as Chromium, Nickel, Copper and  
Selenium.

Momento Silverline™ retains all the  
characteristics from previous coatings  
without polluting the environment with  
heavy metals.

Momento Silverline™ coating has a light  
silver hue.

Momento Silverline™ coating greatly improves the ability to monitor impact socket rotation in cramped and poorly lit surroundings.

Make your choice today and help to protect the environment with Momento and the Silverline™ impact socket coating.

All Momento products are manufactured under one roof at our factory in Sweden since 1951.

We turn high quality special alloy Swedish spring steel into high quality impact sockets and accessories.

Momento manufactures one of the widest ranges of impact sockets and accessories in the world.

Our proprietary process makes it possible for us to offer the highest quality, safest and most economical solution for impact sockets on the market.
